

## **Dylan Reinsel**

### **Executive Board High School Representative**

I am currently in my sixth year as a US History Teacher at St. Cloud High School. Since I have been working in this county, I have become progressively more involved in our union activities. Currently, I am a member of our Instructional Bargaining Team and I also serve on our Membership Committee. Although all our committees are important, I feel those two committees are really at the core of the mission of this organization, especially in recent years.

Previously, I served as the Chair of our Evaluations Committee, as a member of our Elections Committee and as a delegate at the FEA delegate assembly. I have found great joy in trying to do my part to advocate on behalf of our members and educators as a whole. Our ability to organize the internal affairs of our local union in a way that increases our efficiency and effectiveness is crucial to the function and survival of OCEA. The Executive Board plays a large role in determining that direction. Simply put, I would like a seat at the table to help us make important decisions.

I believe most people who have worked with me within our organization would say that I am a logical, caring and thoughtful person who takes the duties and responsibilities entrusted to me very seriously. I would appreciate your vote and consideration for this position as the High School Representative.
